FOR IMMEDIATE RELEASE

Abelo Delivers ATR72-500 (MSN 762) to Air Navigator Group

Dublin, Ireland – 24 February 2026, Abelo a leading global lessor of ATR aircraft, is pleased to announce the successful delivery of an ATR72-500 (MSN 762) to the Air Navigator Group. The newly delivered ATR72-500 will support Air Navigator Group's regional subsidiary, Aerlink, as they expand their Fly-in, Fly-out (FIFO) operations.

The delivery demonstrates Abelo's ability to efficiently manage aircraft transitions and deliver high-quality assets to its customers on schedule. Abelo coordinated all aspects of the process, including repossession from Blue Islands, inspection, maintenance, and reconfiguration to Air Navigator Group's operational specifications in less than 100 days.

"This project reflects our continued commitment to supporting our airline partners with seamless aircraft solutions," said Stephen Gorman, CEO, at Abelo. "We are delighted to partner again with Air Navigator and wish them every success as MSN 762 enters service with Aerlink in Australia"

Aerlink, a proud Australian Air Charter Services provider specializing in Fly-in-Fly-out (FIFO), Freight, and tailored flight services, is excited to announce the addition of MSN 762 to its growing fleet of ATR72-500 aircraft. This new acquisition highlights Aerlink's dedication to enhancing its operations in the regional Fly-In Fly-Out sector, benefiting the resources industry across Western Australia and Queensland. Tony Bull, CEO at Aerlink said "We are thrilled to welcome MSN 762 into our fleet. The exceptional support provided by Abelo and the Air Navigator Group has been invaluable in facilitating the swift integration of this aircraft. With MSN 762, we are confident that our operations will see significant improvements, furthering our ability to deliver reliable and efficient service to our customers". Aerlink's distinguished history of operating ATR aircraft continues with this latest addition, reaffirming its dedication to providing top-notch service in the regional aviation sector across Australia.

About Abelo

Abelo is an Irish-based regional aircraft leasing platform specialising in turboprop aircraft dedicated to connecting communities and businesses in an economically and environmentally responsible manner. Our core mission is to expedite the transition from older aircraft to the most advanced, low-emission technologies. We firmly believe that turboprops are the answer to this sustainability challenge.

Abelo is backed by funds managed by Cerberus Capital Management, a global alternative investment firm. This strategic partnership aims to further enable investments in the turboprop sector during a transformative era where the leasing business and ESG considerations are evolving significantly.

Abelo is committed to leading the way in the aviation industry by embracing innovation and sustainability to benefit both our clients and the planet.

About Air Navigator Group

Air Navigator Group is an aviation services group delivering fixed-wing and rotary-wing charter, engineering, and aviation support across Australia and the Asia-Pacific. Through its specialist aviation businesses, the Group provides passenger transport, freight, heavy-lift operations, and aircraft maintenance, with a strong focus on safety, reliability, and operational excellence for customers in resources, energy, infrastructure, government, and emergency services.

About Aerlink

Aerlink is an Australian ATR operator delivering charter and contract air services across regional Australia, supporting passenger and cargo operations for industry and essential services. Aerlink holds BARS Gold certification and is CASA-approved under Parts 121, 142, 42, and 145, providing air transport, flight training, continuing airworthiness management, and maintenance services both internally and for third parties. Its ICAO Annex 19 alignment reflects a commitment to the highest global safety and risk management standards.
