Abelo to acquire 6 commercial turbo-props managed by Aergo Capital Ltd.

Abelo, the dedicated turboprop aircraft lessor, today announces the acquisition of four ATR 72-600 and two DHC8-400 aircraft, managed by Aergo Capital Ltd.

The six aircraft are on lease to Emerald Airlines, Binter Canarias, National Jet Express, Citilink (two aircraft) and Philippine Airlines, introducing five new operators to the Abelo platform and further diversifying its global customer base.

“We are pleased to announce the successful acquisition of a portfolio of aircraft from Aergo Capital,” said Stephen Gorman, Chief Executive Officer of Abelo. “This transaction marks another milestone in our growth strategy and we look forward to collaborating further with Aergo on future opportunities. For Abelo, this acquisition represents a strategic expansion of our footprint, strengthening our position around key turboprop assets. We are also delighted to welcome five new operators to the Abelo portfolio as part of this growth.”

Paul Sheridan, Chief Executive Officer at Aergo Capital commented: “We are pleased to announce the completed sale of six turboprops to Abelo on behalf of MUFG, DBJ and KDB under Aergo management. We extend our appreciation to all parties who assisted in closing this transaction and look forward to future transactions with Abelo.”

Tye Holmes, Sector Head for EMEA, MUFG commented: “We are delighted to have successfully completed this latest transaction through close collaboration and coordination with our valued partners, Aergo and Abelo, together with DBJ and KDB.”

About Abelo

Abelo is an Irish-based regional aircraft leasing platform specializing in turboprop aircraft dedicated to connecting communities and businesses in an economically and environmentally responsible manner. Larger turboprop aircraft are a very distinct category of aircraft within the regional sector and ecosystem, requiring a dedicated focus. Our core mission is to expedite the transition from older aircraft to the most advanced, low-emission technologies. We firmly believe that turboprops are the answer to this sustainability challenge.
